Hello, we are Ruth and John and this is our web site dedicated to our year long trip in our Landrover. Its a work in progress!

Prior to this trip we had both been inventing and developing products with a small group of engineers in Cambridge, UK, which was fun - see <http://www.cambridge-design.co.uk> . However, now that our ages have reached a combined average of 30 we decided to take a break and an adventure before real life caught up with us irreparably.

So we have bought a Landrover Defender 110, installed a bed, some curtains and a fully stocked bookshelf and have set off on a journey that will take us from Cambridge to Birmingham. Via Europe, the Western Balkans, Greece, Turkey, Georgia, Azerbaijan, Turkmenistan, Uzbekistan, Kyrgyzstan, Xinxiang and Tibet in China, Nepal, India and Bangladesh, SE Asia and finally Australia on a grand tour of extended family before heading home via Hong Kong and anywhere else we missed on the way out!

Although the organisation has been a headache at times, we expect that this will be the trip of our lifetimes and we hope that you will enjoy sharing it with us. Please leave comments and better still come out and join us at some point. It is a big car and we can move some of the guidebooks to make room.
